**DATE: 09 JUL 2008**

**ANNEXURE I****PROPOSED PROCEDURE FOR THE:****1. Marking of rhinoceros and its products:**

- 1.1 It is recommended that all live rhinoceros on private and state land must, where practically possible, be micro chipped with one microchip in the body of the rhinoceros and one microchip in each of the horns. All individual rhinoceros horns in private or state possession must be micro chipped in accordance with Regulation 70 of the regulations pertaining to threatened or protected species (TOPS).
- 1.2 All horns must be measured and photographed. The drill shavings from the horns must be collected and stored by the relevant Conservation Authority, in a sealed container. The microchip number must be placed in the container, as well as attached to the outside of the container. The information of each container must be entered into a register with all the details and kept in a safe for possible future use in DNA finger printing.
- 1.3 Rhinoceros horns originating from natural mortalities, and which is not micro chipped, must be micro chipped by the permit issuing authority and all relevant information as prescribed above, must be collected and stored for possible future use. Such mortalities must be reported to the authority within 14 days. Micro chipping of any rhinoceros or rhinoceros products must be done by or under the supervision of the permit issuing authority.
- 1.4 The above information must be kept in a provincial database and any changes resulting from translocation, export out of a province, natural mortalities, hunting etc. must be reflected in such database. The national Department of Environmental Affairs and Tourism (DEAT) must keep a national database.

**2. Management of the hunting of white rhinoceros:**

- 2.1 Until such time that a national policy on the management of live rhinoceros and rhinoceros horns has been promulgated, trade in individual rhinoceros horn is prohibited in terms of a national moratorium, which has been approved by MinMec and published in

~~Government Gazette no.~~ Only horns that are exported as part of a hunting trophy may be exported with the necessary TOPS and Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) permits. Issuing authorities must utilize the opportunities created by the translocation or darting of rhinoceros for management purposes to microchip all rhinoceros.

- 2.2 All rhinoceros hunts must be strictly controlled by means of an individual TOPS hunting permit issued by the issuing authority and must not be included on TOPS standing permits or game farm hunting permits. This will ensure that all rhinoceros horn can be traced to the property where the hunt took place.
- 2.3 All applications for hunting of rhinoceros received by the issuing authorities must be referred to the Directorate: Regulation and Monitoring Services at DEAT for recommendation. This will enable DEAT to compile a database for hunters and ensure that a hunter does not hunt more than one animal in different provinces.
- 2.4 Rhinoceros hunts may only take place if it is being supervised by a conservation official from the province concerned, subject to a permit being issued in the name of the hunter.
- 2.5 Only one rhinoceros per hunter per year may be hunted for trophy purposes.
- 2.6 No hunter will be allowed to export the horns of a rhinoceros hunted as a trophy in personal baggage and horns may not be separated from the trophy immediately after the hunt.
- 2.7 The horns must be micro chipped on the property where the hunt took place immediately after the hunt, if it is not already micro chipped. Only an official from the issuing authority may micro chip the horns of the hunting trophy.
- 2.8 The professional hunting register must be completed immediately after termination of the hunt.
- 2.9 The TOPS hunting permit must be signed by the hunter before commencement of the hunt. The pwwier of the game farm must sign off the permit after termination of the hunt, to confirm the success of the hunt.
- 2.10 The hunting permit and a copy of the professional hunting register must accompany the rhinoceros products (including the horns), which forms part of the hunting trophy, when being transported between destinations.

STANDARDS MATTERS**

In terms of the Standards Act, 1993 (Act No. 29 of 1993), the Council of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

All South African standards that were previously published by the South African Bureau of Standards with the prefix "SABS" have been redesignated as South African national standards and are now published by Standards South Africa (a division of SABS) with the prefix "SANS".

A list of all existing South African national standards was published by Government Notice No. 1373 of 8 November 2002.

In the list of SANS standards below, the equivalent SABS numbers, where applicable, are given below the new SANS numbers for the sake of convenience. Standards that were published with the "SABS" prefix are listed as such.

**Short title and commencement**

10. These rules shall be called the **Sixth Amendment** to the Rules and shall commence on 09 September 2008.

**MEMORANDUM ON THE OBJECTS OF PROPOSED RULES**

The proposed rules deal with the following matters:

(a) **Registration Certificates**

The format of all registration certificates issued in terms of the Act is (currently) set out in Annexure B.1 to B.2 to the Rules. The South African Council for the Property Valuers Profession ("SACPVP") is, however, of the opinion that too much emphasis is placed on the format of certificates and not the content (information regarding a registered person) that lies therein. The SACPVP has, therefore, decided to provide for certain minimum information which must be contained in registration certificates.

(b) **Prescribed Academic Examinations**

- (i) Section 20(2)(a)(ii) and (b)(i) of the Act authorizes the SACPVP to prescribe or to recognise examinations (academic qualifications) for purposes of registration in terms of the Act.
- (ii) The National Diploma in Real Estate (Property Valuation), and its forerunners the National Diploma in Property Valuation and the National Diploma in Valuation, have for many years been the prescribed (and preferred) academic qualifications. The first-mentioned Diploma is in the process of being phased out by UNISA and since 1 July 2008 no first-year registrations are in fact effected by UNISA. Some other academic institutions, such as the University of Johannesburg, are, however, still offering the Diploma concerned.
- (iii) The SACPVP has also, as provided for by the said section 20(2)(b)(ii) and (b)(i), recognised various academic qualifications offered by accredited educational institutions.
- (iv) Apart from the aforementioned, the SACPVP has, over time, arrived at the conclusion that it would, for various reasons, be better and more expedient not to prescribe any academic qualification for purposes of registration in terms of the Act but to merely recognise the said Diploma, along with various other academic qualifications currently recognised by the SACPVP for the said purposes. There will, consequently, only be recognised academic qualifications.
- (v) It is, however, important to note that the SACPVP remains of the opinion that its Admission Examinations for Professional Valuers, Professional Associated Valuers and Single Residential Property Assessors remain prescribed examinations as tests of practical competence, proficiency and experience.
- (vi) Flowing from this and since "prescribe" means prescribed by a rule made under sections 37 of the Act, the provisions dealing in the Rules for the Property Valuers Profession, 2003, as amended ("the Rules"), with academic qualifications and related matters require the amendments contained in the proposed rules.

- (c) **Practical Workschool for Single Residential Property Assessors** (“the Workschool”)
- (i) In terms of the Rules a Candidate Single Residential Property Assessor wishing to be registered as a Single Residential Property Assessor must, *inter alia*, have attended the Workschool.
- (ii) In spite of the SACPVP’s best efforts, the implementation of this requirement (presenting a workschool) could not be attained. The SACPVP, therefore, reconsidered this matter and decided to abrogate this requirement also in view of the fact that a prospective Single Residential Property Assessor must in any case perform a property valuation of a single residential property, including a fully motivated written valuation report.
- (d) **General**

The other matters contained in the proposed rules deal with general and ancillary matters. However, needless to say, the proposed rules must be read in conjunction with the (current) Rules.
