The Competition Commission hereby gives notice, in terms of Rule 38 (3)(c) of the 'Rules for the Conduct of Proceedings in the Competition Commission, that it has approved the transaction involving the above mentioned firms subject to the conditions set out below.

1. The divestiture within six months of the implementation of the current transaction of the existing Aker Kvaerner's Pulping and Power ("AKPP") assets relating to the supply of brown stock washing, oxygen delignification and bleaching equipment and processes, together with auxiliary products such as pumps and mixers, as a going concern ("the divested business"). For clarification purposes the divested business includes, but is not limited to, the following items and assets:
 - i. All tools, moulds and key machines used in the manufacture of wash presses and other auxiliary equipment which are used in brown stock washing equipment, oxygen delignification equipment and bleaching equipment;
 - ii. All patents related to the manufacture of wash presses, mixers, pumps and auxiliary equipment, as well as all patents related to brown stock washing equipment, oxygen delignification equipment and bleaching equipment. For the avoidance of doubt, the reference to all patents includes all mechanical or process patents relating to the AKPP divested business;
 - iii. All trademarks related to the wash presses and auxiliary equipment, including mixers and pumps; and
 - iv. All know-how related to brown stock washing, oxygen delignification and bleaching equipment, including, but not limited to, all designs, drawings, technical specifications and formulae, relating to the divested business.
2. The merging parties must at the time of the implementation of the divestiture, subject to the applicable labour laws, give the purchaser of the divested business the right to employ all AKPP's employees it wishes to employ.

3. The merging parties must at the time of the divestiture provide the purchaser with commercial data relating to the divested business that is necessary to facilitate the efficient manufacture of brown stock washing, oxygen delignification and bleaching equipment. The commercial data concerned includes, but is not limited to, pricing information, actual prices received, subcontractors' details and contacts and existing tender log books, product specifications, process guarantees and other key commercial conditions of past and current projects and tenders.
4. The merging parties shall:
 - i. Preserve and maintain the economic and competitive value of the divested business until the date of disposal in accordance with good commercial practice and to manage the divested business in the best interest of such business;
 - ii. Refrain from carrying out any act that may reasonably be expected to have a significant adverse impact on the economic value, the management, or the competitiveness of the divested business.
 - iii. Refrain from carrying out any act that may be of such a nature as to, in an adverse way, alter the economic value of the divested business or which could alter the commercial strategy in respect of such business in a significantly adverse way; and
 - iv. Provide sufficient resources for the maintenance of the divested business.
5. The merging parties shall at own cost within one month of implementation of the current transaction appoint an independent trustee, subject to the prior written approval of the Commission. The trustee shall
 - i. monitor the satisfactory discharge by the merging parties of their obligations in terms of the conditions,
 - ii. mediate any disagreements relating to the obligations imposed, and
 - iii. report in writing to the Commission, on a quarterly basis after the implementation of the merger, on the merging parties' compliance with the obligations in terms of the conditions and the progress of the implementation of the divestiture.
6. The merging parties shall within one week of receiving a ruling from any competition authority in relation to the current transaction inform the Commission of such ruling and provide the Commission with a copy of such ruling.
