No. 580

13 July 2007

**STANDARDS ACT, 1993**  
**STANDARDS MATTERS**

In terms of the Standards Act, 1993 (Act No. 29 of 1993), the Council of the South African Bureau of Standards has acted in regard to standards in the manner set out in the Schedules to this notice.

All South African standards that were previously published by the South African Bureau of Standards with the prefix "SABS" have been redesignated as South African national standards and are now published by Standards South Africa (a division of SABS) with the prefix "SANS".

A list of all existing South African national standards was published by Government Notice No. 1373 of 8 November 2002.

In the list of SANS standards below, the equivalent SABS numbers, where applicable, are given below the new SANS numbers for the sake of convenience. Standards that were published with the "SABS" prefix are listed as such.

**SCHEDULE 1: ISSUE OF NEW STANDARDS**

The standards mentioned have been issued in terms of section 16(3) of the Act.

Standard No. and year	Title, scope and purport
SANS 105-C10:2007/ ISO 105-C10:2006	<i>Textiles – Tests for colour fastness – Part C10: Colour fastness to washing with soap or soap and soda.</i> Describes five methods intended for determining the resistance of the colour of textiles of all kinds and in all forms to washing procedures, from mild to severe, used for normal household articles.
SANS 273:2007	<i>The design, manufacture, maintenance and safe operation of chairlifts in mines.</i> Specifies the requirements for the design, manufacture, and maintenance of monocable chairlifts with the carriers permanently attached and with detachable carriers.
SANS 368:2007	<i>Aloe raw material.</i> Specifies requirements and related test methods for <i>Aloe ferox</i> raw material intended to be used in consumer products, including health, cosmetic, health food, medicinal, veterinary and industrial products. It also includes packing and marking requirements.
SANS 509:2007/ ISO 509:1996	<i>Pallet trucks – Principal dimensions.</i> Specifies the principal dimensions for pallet trucks for transporting flat pallets complying generally with ISO 6780 and their loads. The dimensions apply to the heights, widths and lengths of the fork arms of pallet trucks which may have either single or tandem trail wheels. It should not be inferred that the use of a particular size of pallet truck is restricted to one particular size of pallet.
SANS 2001-CT1:2007	<i>Construction works – Part CT1: Structural timberwork (flooring).</i> Establishes construction requirements for the installation of suspended timber floors in buildings.
SANS 2001-CT2:2007	<i>Construction works – Part CT2: Structural timberwork (roofing).</i> Establishes construction requirements for the erection of timber roof assemblies. It covers the erection of trusses, rafters, purlins, battens and purlin rafters.
SANS 3894:2007/ ISO 3894:2005	<i>Road vehicles – Wheels/rims for commercial vehicles – Test methods.</i> Specifies three laboratory methods for testing certain essential strength characteristics of disc wheels, spoke wheels and demountable rims intended for road use on commercial vehicles, buses, trailers and multipurpose passenger vehicles, as defined in ISO 3833. The test methods are a) disc wheel dynamic cornering fatigue test; b) disc wheels and wheels with demountable rims – dynamic radial fatigue test; and c) wheels with demountable rims – dynamic cornering fatigue test.
SANS 4044:2007/ BS 4044:1989	<i>Methods for determination of fibre length by comb sorter diagram.</i> Describes methods for the determination of fibre length by the use of a comb sorter diagram. Two procedures are described. Method A is applicable to samples composed of individual fibres, particularly to samples of cotton fibres, and to samples of waste silk and uncrimped staple fibres with a fibre length of approximately 50 mm. Method B is applicable to twistless combed slivers and prepared rovings of a type used in the woollen and worsted systems.
SANS 8009:2007/ ISO 8009:2004	<i>Mechanical contraceptives – Reusable natural and silicone rubber contraceptive diaphragms – Requirements and tests.</i> Specifies the minimum requirements and test methods to be used for reusable diaphragms made from natural rubber and silicone rubber.
SANS 9297:2007	<i>Water quality – Determination of chloride – Silver nitrate titration with chromate indicator (Mohr's method).</i> Specifies a titration method for the determination of dissolved chloride in water. The method is applicable to the direct determination of dissolved chloride in concentrations between 5 mg/L and 150 mg/L that may be extended to 400 mg/L by using a burette of larger capacity or by sample dilution. The method is not applicable to heavily polluted waters of low chloride content.
SANS 13203:2007/ ISO 13203:2005	<i>Chains, sprockets and accessories – List of equivalent terms.</i> Establishes a list of equivalent terms, in English, French and German, related to the main mechanical chains, classified in accordance with their design and/or use, as well as their principal components, fittings and sprockets. It does not define terms. It is applicable to the patterns of chains and components defined in the ISO standards referenced, as well as to many patterns of non-standardized chain that are used in special applications. As far as possible, the chains, sprockets and accessories are illustrated by an example.

Standard No. and year	Title, scope and purport
SANS 12488-1:2007/ ISO 12488-1:2005	<i>Cranes – Tolerances for wheels and travel and traversing tracks – Part 1: General.</i> Specifies tolerances for construction assemblies and operational conditions of cranes and associated crane tracks as defined in ISO 4306-1. The purpose is to promote safe operation and achievement of the expected life of components by the elimination of excessive load effects due to deviations or misalignments from the normal dimensions of the structure. Tolerances given are extreme values. The elastic deformations due to load effects are not covered. Specific values for particular crane types are given in other parts of ISO 12488.
SANS 18308:2007/ ISO/TS 18308:2004	<i>Health informatics – Requirements for an electronic health record architecture.</i> Assembles and collates a set of clinical and technical requirements for an electronic health record architecture (EHRA) that supports using, sharing, and exchanging electronic health records across different health sectors, different countries, and different models of healthcare delivery. It gives requirements for the architecture but not the specifications of the architecture itself.
SANS 19784-1:2007/ ISO/IEC 19784-1:2006	<i>Information technology – Biometric application programming interface – Part 1: BioAPI specification.</i> Provides a defined interface that allows a software application to communicate with (utilize the services of) one or more biometric technologies. Includes a high-level generic biometric authentication model suited to a broad range of biometrically enabled applications and to most forms of biometric technology. An architectural model is described which enables components of a biometric system to be provided by different vendors, and to be interoperable through fully-defined Application Programming Interfaces (APIs), corresponding Service Provider Interfaces (SPIs), and associated data structures. Covers the basic biometric functions of enrollment, verification and identification, and includes a database interface to allow an application to manage the storage of biometric records. Conformance requirements are identified and informative annexes, including a sample code, are provided. Specifies a biometric data structure that is compatible with all parts of the ISO/IEC 19785 and ISO/IEC 19794 ranges of standards. (Parts of ISO/IEC 19785 and ISO/IEC 19794 are published in South Africa as identical adoptions under the designations SANS 19785 and SANS 19794.)
SANS 19785-1:2007/ ISO/IEC 19785-1:2006	<i>Information technology – Common Biometric Exchange Formats Framework – Part 1: Data element specification.</i> Defines a basic structure for standardized biometric information records (BIRs) within the Common Biometric Exchange Formats Framework (CBEFF). This structure consists of three parts: the standard biometric header (SBH), the biometric data block (BDB), and the security block (SB). CBEFF also defines several data elements and their standardized abstract values that can be used in SBHs and SBs (CBEFF treats the BDB as opaque data). CBEFF also establishes mechanisms by which organizations, called "patrons" by CBEFF, can specify and publish BIR format specifications, which are in turn called "patron formats". CBEFF enables patrons to develop BIR specifications that are fully standardized and interoperable, yet are specifically adapted to the requirements of a particular application environment. CBEFF defines rules for BIRs that contain only one BDB (simple BIR) and that contain at least one BDB (complex BIR). CBEFF defines mandatory data elements that identify the format of a BDB and its security attributes (encryption and integrity). All the other CBEFF-defined data elements and abstract values are optional. CBEFF enables patrons to define additional data elements and abstract values as required by the application environment.
SANS 19794-1:2007/ ISO/IEC 19794-1:2006	<i>Information technology – Biometric data interchange formats – Part 1: Framework.</i> Standardized biometric data interchange formats are crucial to the interoperability of biometric components. Describes general aspects of biometric data interchange formats and specifies requirements to be taken into account in standardizing specific formats. Classifies biometric data according to their processing level and establishes a naming concept for biometric data interchange formats on this basis.
SANS 19794-2:2007/ ISO/IEC 19794-2:2005	<i>Information technology – Biometric data interchange formats – Part 2: Finger minutiae data.</i> Specifies a concept and data formats for representation of fingerprints using the fundamental notion of minutiae. It is generic, in that it may be applied and used in a wide range of application areas where automated fingerprint recognition is involved. Contains definitions of relevant terms, a description of how minutiae shall be determined, data formats for containing the data for both general use and for use with cards, and conformance information. Guidelines and values for matching and decision parameters are provided in an informative annex. Specifies the fundamental data elements used for minutiae-based representation of a fingerprint; three data formats for interchange and storage of this data: a record-based format, and normal and compact formats for use on a smart card in a match-on-card application; and optional extended data formats for including additional data such as ridge counts and core and delta location. Provides for interchange of finger minutiae data between sensing, storage and matching systems.
SANS 19794-4:2007/ ISO/IEC 19794-4:2005	<i>Information technology – Biometric data interchange formats – Part 4: Finger image data.</i> Specifies a data record interchange format for storing, recording, and transmitting the information from one or more finger or palm image areas within a CBEFF data structure as specified in ISO/IEC 19785-1 (published in South Africa as an identical adoption under the designation SANS 19785-1). This can be used for the exchange and comparison of finger image data. Defines the content, format, and units of measurement for the exchange of finger image data that may be used in the verification or identification process of a subject. The information consists of a variety of mandatory and optional items, including scanning parameters, compressed or uncompressed images and vendor-specific information. This information is intended for interchange among organizations that rely on automated devices and systems for identification or verification purposes based on the information from finger image areas. Information compiled and formatted can be recorded on machine-readable media or may be transmitted by data communication facilities.
SANS 19794-5:2007/ ISO/IEC 19794-5:2005	<i>Information technology – Biometric data interchange formats – Part 5: Face image data.</i> Specifies scene, photographic, digitization and format requirements for images of faces to be used in the context of both human verification and computer-automated recognition. The approach to specifying scene and photographic requirements in this format is to carefully describe constraints on how a photograph should appear rather than to dictate how the photograph should be taken. The format is designed to allow for the specification of visible information discernable by an observer pertaining to the face, such as gender, pose and eye colour. The digital image format can be either ISO standard JPEG or JPEG2000. Finally, the "best practice" appendices provide guidance on photo capture for travel documents and face recognition performance versus digital compression.

Standard No. and year	Title, scope and purport
SANS 19794-6:2007/ ISO/IEC 19794-6:2005	<i>Information technology – Biometric data interchange formats – Part 6: Iris image data.</i> Specifies two alternative image interchange formats for biometric authentication systems that utilize iris recognition. The first is based on a rectilinear image storage format that may be a raw, uncompressed array of intensity values or a compressed format such as that specified by ISO/IEC 15444   ITU-T Rec. T.800 Information technology – JPEG 2000 image coding system: Core coding system. The second format is based on a polar image specification that requires certain pre-processing and image segmentation steps, but produces a much more compact data structure that contains only iris information. Data that comply with either one of the iris image formats are intended to be embedded in a CBEFF-compliant structure in the CBEFF Biometric Data Block (BDB) as specified in ISO/IEC 19785-1 (published in South Africa as an identical adoption under the designation SANS 19785-1).
SANS 19795-1:2007/ ISO/IEC 19795-1:2006	<i>Information technology – Biometric performance testing and reporting – Part 1: Principles and framework.</i> Is concerned with the evaluation of biometric systems in terms of error rates and throughput rates. Metrics for the various error rates in biometric enrolment, verification and identification are unambiguously specified. Recommendations and requirements are given for the conduct of performance evaluations through the steps of planning the evaluation; collection of enrolment, verification or identification transaction data; analysis of error rates; and the reporting and presentation of results. The principles presented are generic to the range of biometric modalities, applications, and test purposes, and to both offline and online testing methodologies. These principles help avoid bias due to inappropriate data collection or analytic procedures; give better estimates of field performance for the expended effort; and clarify the limits of applicability of the test results.
SANS 20514:2007/ ISO/TR 20514:2005	<i>Health informatics – Electronic health record – Definition, scope and context.</i> Describes a pragmatic classification of electronic health records (EHR). It also provides simple definitions for the main categories of EHR and provides supporting descriptions of the characteristics of EHR and record systems.
SANS 50312:2007/ EN 312:2003	<i>Particleboards – Specifications.</i> Specifies the requirements for resin-bonded unfaced particleboards. Does not give requirements for Oriented Strand Boards (OSB); these are set out in EN 300 (published in South Africa as an identical adoption under the designation SANS 472). Does not apply to extruded particleboards.
SANS 52195-2:2007/ EN 12195-2:2000	<i>Load restraint assemblies on road vehicles – Safety – Part 2: Web lashing made from man-made fibres.</i> Specifies safety requirements for web lashing made from man-made fibres with flat woven webbings for multiple use and of lashing combinations with woven webbings for the safe surface transport of goods on road vehicles, e.g. trucks and trailers which are used on roads or located on vessels or on rail waggons and/or combinations thereof; includes only tensioning devices to be hand driven with a maximum hand force of 500 N; specifies methods for testing of web lashing for securing of loads; deals with the significant hazards which could occur when web lashings are in use as intended and under conditions foreseen by the manufacturer; includes composite load restraint assemblies also for the same purpose as above.
SANS 52195-3:2007/ EN 12195-3:2001	<i>Load restraint assemblies on road vehicles – Safety – Part 3: Lashing chains.</i> Specifies safety requirements for lashing chains and lashing combinations with chain for the safe surface transport of goods on load carriers, e.g. trucks and trailers which are used on roads or located on vessels or on rail waggons and/or combinations thereof. Includes only tensioning devices to be hand driven with a maximum hand force of 500 N. Does not give requirements for multi-purpose lever blocks other than to the type of fine tolerance chain and the additional marking of the maximum hand-operating force. Deals with hazards which could occur when lashing chains are in use as intended and under conditions foreseen by the manufacturer.
SANS 52195-4:2007/ EN 12195-4:2003	<i>Load restraint assemblies on road vehicles – Safety – Part 4: Lashing steel wire ropes.</i> Specifies safety requirements for lashing steel wire ropes and flat lashing steel wire ropes and lashing combinations with lashing steel wire ropes for the safe surface transport of loads on load carriers, e.g. trucks and trailers which are used on roads or located on vessels or on rail wagons and/or combinations thereof; stipulates procedures for testing lashing steel wire ropes and flat lashing steel wire ropes; deals with hazards which could occur when lashing steel wire ropes and flat lashing steel wire ropes are in use as intended and under conditions foreseen by the manufacturer.
SANS 61000-2-3:2007/ IEC 61000-2-3:1992	<i>Electromagnetic compatibility (EMC) – Part 2: Environment – Section 3: Description of the environment – Radiated and non-network-frequency-related conducted phenomena.</i> Describes the electromagnetic environment, and is intended as a basis to achieve electromagnetic compatibility in system and equipment design.
SANS 61347-2-13:2007/ IEC 61347-2-13:2006	<i>Lamp controlgear – Part 2-13: Particular requirements for d.c. or a.c. supplied electronic controlgear for LED modules.</i> Specifies particular safety requirements for electronic controlgear for use on d.c. supplies up to 250 V and a.c. supplies up to 1 000 V at 50 Hz or 60 Hz and at an output frequency which can deviate from the supply frequency, associated with LED modules.
SANS 61378-3:2007/ IEC 61378-3:2006	<i>Converter transformers – Part 3: Application guide.</i> Provides information to users about specific topics related to industrial and HVDC converter transformers with design, construction, testing and operating conditions differing from conventional transformers used in power systems.
SANS 62305-1:2007/ IEC 62305-1:2006	<i>Protection against lightning – Part 1: General principles.</i> Provides the general principles to be followed in the protection against lightning of structures including their installations and contents as well as persons, and services connected to the structure
SANS 62305-2:2007/ IEC 62305-2:2006	<i>Protection against lightning – Part 2: Risk management.</i> Applies to risk assessment for a structure or a service due to lightning flashes to earth. Its purpose is to provide a procedure for the evaluation of such a risk. Once an upper tolerable limit for the risk has been selected, this procedure allows the selection of appropriate protection measures to be adopted to reduce the risk to or below the tolerable limit
SANS 62305-3:2007/ IEC 62305-3:2006	<i>Protection against lightning – Part 3: Physical damage to structures and life hazard.</i> Provides the requirements for the protection of a structure against physical damage by means of a lightning protection systems (LPS), and the protection against injury to living beings due to touch and step voltages in the vicinity of an LPS.
SANS 62305-4:2007/ IEC 62305-4:2006	<i>Protection against lightning – Part 4: Electrical and electronic systems within structures.</i> Provides information for the design, installation, inspection, maintenance and testing of a lightning electromagnetic impulse (LEMP) protection measures system (LPMS) for electrical and electronic systems within a structure, able to reduce the risk of permanent failures due to lightning electromagnetic impulse

## SCHEDULE 2: AMENDMENT OF EXISTING STANDARDS

The standards mentioned have been amended in terms of section 16(3) of the Act. The number and date of a standard that has been superseded appear in brackets below the new number. In the case of an amendment issued in consolidated format, the edition number of the new (consolidated) edition appears in brackets below the number of the standard.

Standard No. and year	Title, scope and purport
SANS 122:2007 (Ed. 1.3)	<i>Pressure-sensitive adhesive tapes for electrical purposes (Metric units). Consolidated edition incorporating amendment No. 3.</i> Amended to change the designation of SABS standards to SANS standards and to update a referenced standard.
SANS 161-1:1995/ ISO 1873-1:1995	<i>Plastics – Polypropylene (PP) moulding and extrusion materials – Part 1: Designation system and basis for specifications. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 161-2:1997/ ISO 1873-2:1997	<i>Plastics – Polypropylene (PP) moulding and extrusion materials – Part 2: Preparation of test specimens and determination of properties. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 203:2007 (SABS SM 1158:1990)	<i>Bactericidal and algacidal efficacy of swimming pool chemicals.</i> Specifies a presumptive test for the evaluation of the efficacy of swimming pool chemicals recommended for the control of bacteria or algae (or both) in swimming pool water.
SANS 286-1:1988/ ISO 286-1:1988	<i>ISO system of limits and fits – Part 1: Bases of tolerances, deviations and fits. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 286-2:1988/ ISO 286-2:1988	<i>ISO system of limits and fits – Part 2: Tables of standard tolerance grades and limit deviations for holes and shafts. ISO technical corrigendum No. 1.</i> Amended to replace the upper limit deviations for tolerance class A13, E8, R10 and to replace the lower limit deviations for tolerance class F9. <i>National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 419:2007 (Ed. 2.1)	<i>E glass fibre chopped strand mat for reinforcement of polyester and other liquid laminating systems. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards and to update referenced standards.
SANS 481:2007 (SABS SM 481:1973)	<i>Accelerated weathering of textiles – Artificial light and water spray exposure method.</i> Specifies a method for the accelerated weathering of textiles, using the artificial light and water spray exposure method.
SANS 527-2:1993/ ISO 527-2:1993	<i>Plastics – Determination of tensile properties – Part 2: Test conditions for moulding and extrusion plastics. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 538:2007 (Ed. 2.2)	<i>High-temperature wood-preserving creosote. Consolidated edition incorporating amendment No. 2.</i> Amended to cancel amendment No. 1:1997 and to reinstate the original "Other requirements" in table 1.
SANS 927:2007 (Ed. 3.1)	<i>Precast concrete kerbs, edgings and channels. Consolidated edition incorporating amendment No. 1.</i> Amended to insert figure numbers and specific sizes of product types in the tables.
SANS 999:2007 (Ed. 3.1)	<i>Anodized coatings on aluminium (for architectural applications). Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and to update referenced standards.
SANS 1092:2007 (SABS SM 92:1973)	<i>Breaking strength and extension at break of textile fabrics – Strip method using constant rate of load.</i> Specifies the strip method for the determination of the breaking strength and extension at break of textile fabrics, using a constant rate of load.
SANS 1156-1:2007 (Ed. 1.2)	<i>Hose for liquefied petroleum gas (LPG) – Part 1: Hose used in road and rail transport. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards, and to update the definition of "acceptable" and referenced standards.
SANS 1186-2:2007 (Ed. 1.2)	<i>Symbolic safety signs – Part 2: Self-luminous (radioluminescent) signs. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards, to update referenced standards, and to delete a reference to the certification mark.
SANS 1287-2:2007 (Ed. 1.1)	<i>Ventilation brattices and ducting – Part 2: Brattices, unsupported. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and to update a referenced standard.
SANS 1407:2007 (Ed. 2.1)	<i>Anodized coatings on aluminium (for general applications). Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and to update the referenced standards.
SANS 1451-3:2007 (Ed. 1.1)	<i>Hearing protectors – Part 3: Ear-muffs attached to an industrial safety helmet. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, and to update referenced standards.
SANS 1572:2007 (Ed. 1.1)	<i>CO<sub>2</sub> gas cartridges (steel). Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update referenced standards and to update the definition of "acceptable".
SANS 1628-2:1998/ ISO 1628-2:1998	<i>Determination of the viscosity of polymers in dilute solution using capillary viscometers – Part 2: Poly(vinyl chloride) resins. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 1642:2007 (Ed. 1.2)	<i>Baker's compressed yeast. Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards, and to delete reference to the certification mark.

SANS 1659:2007 (Ed. 1.1)	<i>Aluminium master alloys for remelting. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and to update the referenced standards.
SANS 1668:2007 (Ed. 1.1)	<i>Fibre-reinforced plastics (FRP) tanks for buried (underground) storage for petroleum products. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, to update the definition of "acceptable" and to update a referenced standard.
SANS 1718-1:2007 (Ed. 2.1)	<i>Gaming equipment – Part 1: Casino equipment. Consolidated edition incorporating amendment No. 1.</i> Amended to add the all-numeric date format "dd-mm-yyyy" to 8.6.2 and to include a note stating that the preferred date format is yyyy-mm-dd.
SANS 1875:2007 (Ed. 1.1)	<i>Edible oils. Consolidated edition incorporating amendment No. 1.</i> Amended to change the designation of SABS standards to SANS standards, and to delete reference to the certification mark.
SANS 2081:1986/ ISO 2081:1986	<i>Metallic coatings – Electroplated coatings of zinc on iron or steel. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2082:1986/ ISO 2082:1986	<i>Metallic coatings – Electroplated coatings of cadmium on iron or steel. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2093:1986/ ISO 2093:1986	<i>Electroplated coatings of tin – Specification and test methods. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2106:1982/ ISO 2106:1982	<i>Anodizing of aluminium and its alloys – Determination of mass per unit area (surface density) of anodic oxide coatings – Gravimetric method. ISO amendment No. 1.</i> Amended to replace the reagent solution and to clarify the field of application. <i>National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2135:1984/ ISO 2135:1984	<i>Anodizing of aluminium and its alloys – Accelerated test of light fastness of coloured anodic oxide coatings using artificial light. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2143:1981/ ISO 2143:1981	<i>Anodizing of aluminium and its alloys – Estimation of loss of absorptive power of anodic oxide coatings after sealing – Dye spot test with prior acid treatment. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2178:1982/ ISO 2178:1982	<i>Non-magnetic coatings on magnetic substrates – Measurement of coating thickness – Magnetic method. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2179:1986/ ISO 2179:1986	<i>Electroplated coatings of tin-nickel alloy – Specification and test methods. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2361:1982/ ISO 2361:1982	<i>Electrodeposited nickel coatings on magnetic and non-magnetic substrates – Measurement of coating thickness – Magnetic method. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2507-1:1995/ ISO 2507-1:1995	<i>Thermoplastics pipes and fittings – Vicat softening temperature – Part 1: General test method. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2553:1992/ ISO 2553:1992	<i>Welded, brazed and soldered joints – Symbolic representation on drawings. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2819:1980/ ISO 2819:1980	<i>Metallic coatings on metallic substrates – Electrodeposited and chemically deposited coatings – Review of methods available for testing adhesion. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 2931:1983/ ISO 2931:1983	<i>Anodizing of aluminium and its alloys – Assessment of quality of sealed anodic oxide coatings by measurement of admittance or impedance. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 3127:1994/ ISO 3127:1994	<i>Thermoplastics pipes – Determination of resistance to external blows – Round-the-clock method. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 3210:1983/ ISO 3210:1983	<i>Anodizing of aluminium and its alloys – Assessment of quality of sealed anodic oxide coatings by measurement of the loss of mass after immersion in phosphoric-chromic acid solution. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 3452-2:2000/ ISO 3452-2:2000	<i>Non-destructive testing – Penetrant testing – Part 2: Testing of penetrant materials. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 3452-4:1998/ ISO 3452-4:1998	<i>Non-destructive testing – Penetrant testing – Part 4: Equipment. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 3892:2000/ ISO 3892:2000	<i>Conversion coatings on metallic materials – Determination of coating mass per unit area – Gravimetric methods. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 4524-2:2007/ ISO 4524-2:2000 (SABS ISO 4524-2:1985)	<i>Metallic coatings – Test methods for electrodeposited gold and gold alloy coatings – Part 2: Mixed flowing gas (MFG) environmental tests.</i> Provides procedures for conducting mixed flowing gas (MFG) environmental tests involving exposures to controlled quantities of corrosive gas mixtures. It describes the required equipment and the methods for gas, temperature and humidity control that enable tests to be conducted in a reproducible manner.

SANS 4525:2007/ ISO 4525:2003 (SABS ISO 4525:1985)	<i>Metallic coatings – Electroplated coatings of nickel plus chromium on plastics materials.</i> Specifies requirements for decorative, electroplated coatings of nickel plus chromium with and without copper undercoats on plastics materials. Permits the use of either a copper or ductile nickel undercoat to satisfy thermal cycle requirements.
SANS 4526:2007/ ISO 4526:2004 (SABS ISO 4526:1984)	<i>Metallic coatings – Electroplated coatings of nickel for engineering purposes.</i> Specifies requirements for electroplated coatings of nickel on ferrous and non-ferrous metal for engineering purposes.
SANS 4538:1978/ ISO 4538:1978	<i>Metallic coatings – Thioacetamide corrosion test (TAA test). National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 4831:2007/ ISO 4831:2006 (SABS ISO 4831:1991)	<i>Microbiology of food and animal feeding stuffs – Horizontal method for the detection and enumeration of coliforms – Most probable number technique.</i> Gives general guidelines for the detection and the enumeration of coliforms. It is applicable to products intended for human consumption and for the feeding of animals, and environmental samples in the area of food production and food handling. Enumeration is carried out by calculation of the most probable number (MPN) after incubation at 30 °C or 37 °C in a liquid medium. The temperature is subject to agreement between the parties concerned.
SANS 4832:2007/ ISO 4832:2006 (SABS ISO 4832:1991)	<i>Microbiology of feed and animal feeding stuffs – Horizontal method for the enumeration of coliforms – Colony-count technique.</i> Gives general guidelines for the enumeration of coliforms. It is applicable to products intended for human consumption and for the feeding of animals, and environmental samples in the area of food production and food handling, by means of the technique of counting colonies after incubation on a solid medium at 30 °C or at 37 °C. The temperature is subject to agreement between the parties concerned.
SANS 4833:2007/ ISO 4833:2003 (SABS ISO 4833:1991)	<i>Microbiology of food and animal feeding stuffs – Horizontal method for the enumeration of microorganisms – Colony-count technique at 30 °C.</i> Specifies a horizontal method for the enumeration of microorganisms, by counting the colonies growing in a solid medium after aerobic incubation at 30 °C. Subject to the limitations discussed in the introduction, this standard is applicable to products intended for human consumption or the feeding of animals.
SANS 5071:2007 (SABS SM 71:1973)	<i>Fibre diameter of textile fibres – Projection microscope method.</i> Specifies a method for the measurement of the fibre diameter of textile fibres by means of projection microscopy.
SANS 5218:2007 (SABS SM 218:1971)	<i>Water – Albuminoid ammonia content.</i> Specifies a method for the determination of the albuminoid ammonia content of water after the liberation of the free and saline ammonia in accordance with SANS 5217.
SANS 5272:2007 (SABS SM 272:1974)	<i>Non-fibrous material content of textiles – Hydrochloric acid method.</i> Specifies the hydrochloric acid method for the determination of the non-fibrous material content of textiles. Is applicable to textile materials treated with resins such as amino-type resins.
SANS 5492:2007 (SABS SM 492:1972)	<i>Runnage of twines.</i> Specifies a method for the determination of the runnage (length per mass) of twines.
SANS 5754:2007 (SABS SM 754:1971)	<i>Autoclave expansion of cement.</i> Specifies a method for the autoclave expansion of cement.
SANS 5836:2007 (Ed. 2.2)	<i>Effect of fine and coarse aggregate on the shrinkage and expansion of cement aggregate mixes (mortar prism method). Consolidated edition incorporating amendment No. 2.</i> Amended to change the designation of SABS standards to SANS standards and to delete "ordinary portland" with reference to cement.
SANS 5899:2007 (SABS SM 899:1983)	<i>Dimensions of refractory bricks.</i> Describes a method to determine the dimensions of refractory bricks.
SANS 5925:2007 (SABS SM 925:1978)	<i>Moisture content of coal samples intended for general analysis (air-oven method).</i> Specifies a method for the determination of the moisture content of coal samples intended for general analysis (air-oven method).
SANS 5966:2007 (SABS SM 966:1984)	<i>Removable non-fibrous material content of textiles (scouring method).</i> Specifies the scouring method for the determination of the removable non-fibrous material content of textiles.
SANS 6027:2007 (SABS SM 1027:1980)	<i>Calibration of the BCIRA X-type viscometer.</i> Specifies a method for the calibration of the BCIRA X-type viscometer.
SANS 6028:2007 (SABS SM 1028:1980)	<i>Fluidity of cotton and certain cellulosic man-made fibres in cuprammonium solution (basic method).</i> Specifies a basic method for the determination of the fluidity of cotton and certain cellulosic man-made fibres in a cuprammonium solution.
SANS 6045:2007 (SABS SM 1045:1981)	<i>Resistance to delamination of wood adhesive bonds.</i> Specifies a method for testing the resistance to delamination of wood adhesive bonds.
SANS 6103:2007 (SABS SM 1103:1988)	<i>Linear density of yarns in weft-knitted fabrics.</i> Specifies a method for the determination of the linear density of yarns in weft-knitted fabrics.
SANS 6104:2007 (SABS SM 1104:1988)	<i>Stitch length of weft-knitted fabrics.</i> Specifies a method for the determination of the stitch length of regular weft-knitted fabrics.
SANS 6158:2007/ ISO 6158:2004 (SABS ISO 6158:1984)	<i>Metallic coatings – Electrodeposited coatings of chromium for engineering purposes.</i> Specifies requirements for electroplated coatings of chromium, with or without undercoats, on ferrous and non-ferrous metals for engineering purposes.
SANS 6887-1:1999/ ISO 6887-1:1999	<i>Microbiology of food and animal feeding stuffs – Preparation of test samples, initial suspension and decimal dilutions for microbiological examination – Part 1: General rules for the preparation of the initial suspension and decimal dilutions. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.

Standard No. and year	Title, scope and purport
SANS 7218:1996/ ISO 7218:1996	<i>Microbiology of food and animal feeding stuffs – General rules for microbiological examinations. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 7811-6:2004/ ISO/IEC 7811-6:2001	<i>Identification cards – Recording technique – Part 6: Magnetic stripe – High coercivity. ISO/IEC amendment No. 1.</i> Amended to include $U_{16}$ criteria and a waveform $U_{16}$ test method.
SANS 7816-6:2005/ ISO/IEC 7816-6:2004	<i>Identification cards – Integrated circuit cards – Part 6: Interindustry data elements for interchange. ISO/IEC technical corrigendum No. 1.</i> Corrected to change the application uses of interindustry templates, to insert interindustry data elements, tags, cards and application-related data in tables and to add to the bibliography.
SANS 7954:1987/ ISO 7954:1987	<i>Microbiology – General guidance for enumeration of yeasts and moulds – Colony count technique at 25 °C. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 8201:1987/ ISO 8201:1987	<i>Acoustics – Audible emergency evacuation signal. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 8914:1990/ ISO 8914:1990	<i>Microbiology – General guidance for the detection of Vibrio parahaemolyticus. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9227:2007/ ISO 9227:2006 (SABS ISO 9227:1990)	<i>Corrosion tests in artificial atmospheres – Salt spray tests.</i> Specifies the apparatus, the reagents and the procedure to be used in conducting the neutral salt spray (NSS), acetic acid salt spray (AASS) and copper-accelerated acetic acid salt spray (CASS) tests for assessment of the corrosion resistance of metallic materials with or without permanent corrosion protection or temporary corrosion protection.
SANS 9364:2007/ ISO 9364:2006 (SABS ISO 9364:1991)	<i>Continuous hot-dip aluminium/zinc-coated steel sheet of commercial, drawing and structural qualities.</i> Specifies the characteristics of steel of commercial, drawing and structural qualities coated by a continuous hot-dip aluminium/zinc alloy coating process. The product is intended for applications where the corrosion characteristics of aluminium coupled with those of zinc are desired.
SANS 9454-1:1990/ ISO 9454-1:1990	<i>Soft soldering fluxes – Classification and requirements – Part 1: Classification, labelling and packaging. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9454-2:1998/ ISO 9454-2:1998	<i>Soft soldering fluxes – Classification and requirements – Part 2: Performance requirements. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-1:1990/ ISO 9455-1:1990	<i>Soft soldering fluxes – Test methods – Part 1: Determination of non-volatile matter, gravimetric method. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-2:1993/ ISO 9455-2:1993	<i>Soft soldering fluxes – Test methods – Part 2: Determination of non-volatile matter, ebulliometric method. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 9455-3:1992/ ISO 9455-3:1992	<i>Soft soldering fluxes – Test methods – Part 3: Determination of acid value, potentiometric and visual titration methods. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 10139:2007 (Ed. 3.1)	<i>Fire detection and alarm systems for buildings – System design, installation and servicing. Consolidated edition incorporating amendment No. 1.</i> Amended to update the referenced standards, to revise commentary on sound systems for emergency purposes, and to correct the requirements for spacing and siting of detectors.
SANS 10232-1:2007 (SABS 0232-1:2000)	<i>Transport of dangerous goods – Emergency information systems – Part 1: Emergency information system for road transport.</i> Covers requirements for an emergency information system that needs to be in place for the transport of dangerous goods. Requirements are set for hazard class diamonds, placards and emergency information documents.
SANS 10266:2007 (SABS 0266:1995)	<i>The safe use, operation and inspection of man-riding belt conveyors in mines.</i> Covers the safe use, operation and inspection of man-riding belt conveyors in mines, that operate at a speed not exceeding 2,5 m/s. Applicable both to man-riding belt conveyors that operate in one direction and to man-riding belt conveyors that transport persons on the top and bottom belts.
SANS 10373-6:2004/ ISO/IEC 10373-6:2001	<i>Identification cards – Test methods – Part 6: Proximity cards. ISO/IEC amendment No. 3.</i> Amended to add abbreviations, symbols, additional PCD test methods, and a bibliography. <i>ISO/IEC amendment No. 4.</i> Amended to add additional test methods for PCD RF interface and PICC alternating field exposure.
SANS 10389-2:2007 (Ed. 1.1)	<i>Exterior lighting – Part 2: Exterior security lighting. Consolidated edition incorporating amendment No. 1.</i> Amended to add the definition of "acceptable", and to replace SANS 1277 and SANS 1279 with SANS 475.
SANS 10843:1997/ ISO 10843:1997	<i>Acoustics – Methods for the description and physical measurement of single impulses or series of impulses. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 11202:1995/ ISO 11202:1995	<i>Acoustics – Noise emitted by machinery and equipment – Measurement of emission sound pressure levels at a work station and at other specified positions – Survey method in situ. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 14443-1:2000/ ISO/IEC 14443-1:2000	<i>Identification cards – Contactless integrated circuit(s) cards – Proximity cards – Part 1: Physical characteristics. National amendment No. 1.</i> Amended to change the designation from SABS to SANS, with no technical changes.
SANS 14443-2:2004/ ISO/IEC 14443-2:2001	<i>Identification cards – Contactless integrated circuit(s) cards – Proximity cards – Part 2: Radio frequency power and signal interface. ISO/IEC amendment No. 1.</i> Amended to change the bit rates of $fcl/64$ , $fcl/32$ and $fcl/16$ .

Standard No. and year	Title, scope and purport
SANS 14443-3:2004/ ISO/IEC 14443-3:2001	<i>Identification cards – Contactless integrated circuit(s) cards – Proximity cards – Part 3: Initialization and anticollision. ISO/IEC amendment No. 1.</i> Amended to change the bit rates of $f_c/64$ , $f_c/32$ and $f_c/16$ . <i>ISO/IEC technical corrigendum No. 1 to ISO/IEC amendment No. 1.</i> Changed to correct certain minimum TR2 coding values. <i>ISO/IEC amendment No. 3.</i> Amended to clarify the handling of reserved fields and values.
SANS 14443-4:2004/ ISO/IEC 14443-4:2001	<i>Identification cards – Contactless integrated circuit(s) cards – Proximity cards – Part 4: Transmission protocol. ISO/IEC amendment No. 1.</i> Amended to clarify the handling of reserved fields and values.

## 1. Definitions

In these Regulations, any word or expression to which a meaning has been assigned to in the Home Loan and Mortgage Disclosure Act, 2000 (Act No. 63 of 2000) shall have the meaning so assigned to it and, unless the context indicates otherwise –

**"accepted security"** means the security required by a financial institution in order for an applicant to qualify for a home loan;

**"applicant"** means a person that has submitted an application for a home loan to a financial institution;

**"application"** means a completed and signed home loan application form that is supported by all documentation required by a financial institution;

**"exposure"** means a financial institution's level of investment in home loans in an area relative to other areas and relative to the investments of other financial institutions in that area;

**"income"** means the gross monthly household income of an applicant;

**"loan amount"** means the principal debt under a home loan as defined or contemplated in applicable consumer credit legislation;

**"loan to value ratio"** means the home loan amount as a percentage of the value of the property which secures the home loan, as determined by the financial institution or its valuers at the time of assessment of the application;

**"property in possession"** means a immovable property that a financial institution has acquired at a sale in execution; and

**"repayment to income ratio"** means the amount of the instalment that would be payable under a home loan expressed as a percentage of income and measured at the time of the assessment of the application.

## 2. Disclosure and reporting

(1) (a) financial institution must collect and capture the information set out in Annexure "A" to these regulations in respect of each application;

(b) subject to subregulation (3); a financial institution must, within 60 days of each financial year end, submit to the Office the information contemplated in paragraph (a) in electronic form; and

(c) a financial institution must, in its annual financial statements and under a separate heading entitled "Disclosure Requirements in terms of the Home Loan and Mortgage Disclosure Act, 2000", disclose the information set out in Annexure "B".

(2) In capturing, or reporting on any amount in rand as required by these regulations, the amount must be rounded off to the nearest thousand rand.

(3) The Office may request a copy of the information referred to in sub - regulation (1)(b) in hard copy.

### **3. Insertion in applications**

In respect of information required in Annexure "A", a financial institution must include in its standard application form, information on the race of the applicant, the following wording: "The financial institution is required to request this information to assist the Government in monitoring lending practices in terms of the Home Loan and Mortgage Disclosure Act, 2000."

### **4. Duration of record keeping**

A financial institution must keep a record of the information supporting a report contemplated in regulation 2(1)(b) for a period of at least three years from the time such information is first furnished to the Office.

### **5. Notification**

Despite any other law, a financial institution must, within a reasonable period of having approved or declined an application —

- (a) on request notify the applicant of the outcome in writing;
- (b) take reasonable measures to ensure that the notification is in a language that can be understood by the applicant; and

**PROPOSED REGULATIONS FOR MUNICIPAL (METROPOLITAN) POLICE  
SERVICES REGARDING MEDALS AND DECORATIONS****1. Wearing of decorations and medals**

- (1) Decorations, medals, bars, clasps and ribbons, including any miniature reproduction thereof, must be worn with due regard to the provisions of the Warrants in terms of which they have been instituted.
- (2) The Executive Head of a municipal (metropolitan) police service may determine the occasions at and the circumstances in which a decoration, medal, bar and clasp, as well as any miniature reproduction thereof, may be worn.
- (3) A decoration, medal, bar, clasp or ribbon, including any miniature reproduction thereof, may be worn only by a person to whom it has been awarded.

**2. Certificate of award and undertaking by recipient**

- (1) The Executive Head of a municipal (metropolitan) police service or an officer designated by him or her, must issue a certificate of award in respect of each decoration or medal awarded.
- (2) Except in the case of a posthumous award, the Executive Head of a municipal (metropolitan) police service may require from any person to whom a decoration or medal has been awarded, to give a written undertaking that he or she will —
  - (a) not, at any time, give away, throw away, sell, pledge, barter or in any way other than by bequest, alienate such decoration, medal, bar, clasp or ribbon, including any miniature reproduction thereof, or the certificate of award in respect of such decoration or medal;
  - (b) immediately report the loss thereof to the Executive Head of a municipal (metropolitan) police service in writing; and
  - (c) immediately return to the Executive Head of a municipal (metropolitan) police service any such decoration or medal and the bar, clasp or ribbon, including any miniature reproduction thereof as well as the certificate of award in respect thereof which, in terms of these Regulations, have been cancelled, annulled or declared forfeited.

**3. Presentation of decorations and medals**

- (1) A decoration, medal, bar, clasp or ribbon, including any miniature reproduction thereof, or the certificate of award in respect of such decoration or medal shall, if at all possible, be presented —
  - (a) to the person on whom it is conferred himself or herself, and in the case of a posthumous conferment, to the next-of-kin, other relative or legal heir of the deceased person, as the Executive Head of a municipal (metropolitan) police service may decide; and
  - (b) on parade or at a special gathering.

**4. Forfeiture**

- (1) The Mayor of a municipal (metropolitan) council, upon the recommendation of the Executive Head of a municipal (metropolitan) police service, may cancel or annul the awarding of a decoration or medal and declare that it is forfeited, if the person to whom it was awarded —

- (a) deserts from a municipal (metropolitan) police service, or is discharged therefrom on account of misconduct; or
  - (b) is convicted of any crime contemplated in Schedule 1 of the Criminal Procedure Act, 1977 (Act No. 51 of 1977).
- (2) The cancellation or annulment and forfeiture of a decoration or medal in terms of subregulation (1) also means the forfeiture of any bar, clasp or miniature reproduction thereof, as well as any certificate of award.
- (3) If a decoration or medal has been cancelled or annulled and declared forfeited, the person to whom it was awarded must forthwith return to the Executive Head of a municipal (metropolitan) police service the decoration or medal and the bar, clasp or ribbon, including any miniature reproduction thereof, as well as the certificate of award in respect of such decoration or medal.
- (4) Any person whose decoration or medal was cancelled or annulled and declared forfeited in terms of this regulation, may make written representations to the Mayor of the municipal (metropolitan) council for the restoration of the forfeited decoration or medal.
- (5) The Mayor of the municipal (metropolitan) council may restore the awarding of a decoration or medal if, after consideration of the written representations contemplated in subregulation (4), he or she is satisfied that the restoration of the decoration or medal that was cancelled or annulled and declared forfeited, will not bring the said decoration or medal in disrepute.
- (6) If the Mayor of the municipal (metropolitan) council has restored a decoration or medal as provided for in subregulation (5), the decoration or medal and any bar, clasp or ribbon relating thereto, including any miniature reproduction thereof, and the certificate of award in respect of such decoration or medal, must be returned to the person to whom it was awarded.

**5. Record keeping regarding the awarding and forfeiture of medals and decorations**

- (1) The Executive Head of a municipal (metropolitan) police service or an officer designated by him or her, must ensure that a copy of the certificate of award in respect of each decoration or medal which was awarded to a person in terms of regulation 2 above, is forwarded to the office of the National Commissioner for purposes of filing such certificate of award and making an entry in a register for the awarding of medals and decorations by municipal (metropolitan) police services for record keeping purposes.
- (2) If a medal or decoration has been cancelled, annulled or declared forfeited in terms of these Regulations, the Executive Head of a municipal (metropolitan) police service must inform the National Commissioner accordingly to ensure that an appropriate entry be made in the register referred to in subparagraph (1) above that reflects that the medal or decoration has been cancelled, annulled or declared forfeited.

**6. Theft, loss, destruction or damage**

- (1) The person to whom a decoration or medal was awarded must forthwith report to the Executive Head of a municipal (metropolitan) police service the theft, loss or destruction of or damage to a decoration, medal, bar, clasp or ribbon, including any miniature reproduction thereof, or the certificate of award in respect of such decoration or medal.
- (2) The Executive Head of a municipal (metropolitan) police service may authorize the replacement of a decoration, medal, bar, clasp or ribbon, including any miniature reproduction thereof, or the certificate of award in respect of such decoration or medal, if he or she is satisfied that it has been stolen, lost, destroyed or damaged.
- (3) The Executive Head of a municipal (metropolitan) police service shall decide whether the replacement of a decoration, medal, bar, clasp or ribbon, or the certificate of award in respect of such decoration or medal, which has been stolen, lost, destroyed or damaged, shall be issued at the expense of the recipient, or at the expense of the municipality concerned: Provided that, a miniature reproduction of a decoration, medal, bar, clasp or ribbon shall be issued only at the expense of the recipient.

**7. Specimens for museums**

A specimen of a decoration, medal, bar, clasp or ribbon, including any miniature reproduction thereof, may be made available to recognized museums or similar institutions with the written approval of all the Executive Heads of the various municipal (metropolitan) police services.

**8. Short title**

These Regulations shall be known as the Regulations for Municipal (Metropolitan) Police Services regarding Medals and Decorations, 2007.

Proposed National Standard: Crowd Management during gatherings and demonstrations

## NATIONAL MUNICIPAL POLICING STANDARD FOR CROWD MANAGEMENT DURING GATHERINGS AND DEMONSTRATIONS

### 1. Background

- (1) The Regulation of Gatherings Act, 1993 (Act No. 205 of 1993), (hereinafter referred to as “the Act”), shifted the focus away from obtaining permission to hold a gathering, to giving notice of an intended gathering. The said Act prescribes the procedures that must be followed when the Constitutional rights to protest, petition and exercise freedom of speech are exercised.
- (2) The purpose of this National Standard is to regulate crowd management by members of municipal police services during gatherings and demonstrations in accordance with the democratic principles of the Constitution and acceptable international standards.

### 2. Definitions

In this National Standard, unless the content otherwise indicates, —

- (a) “*authorized member*” means a member of the Service designated in terms of section 2(2)(a) of the Act, to help with the arrangements relating to a gathering or demonstration;
- (b) “*convener*” means any person who, of his or her own accord, convenes a gathering and, in relation to any organization or branch of any organization, any person appointed by such organization or branch as contemplated in section 2(1) of the Act;
- (c) “*crowd management*” means the policing of assemblies, demonstrations and all gatherings, as defined in the Act, whether recreational, peaceful or of whatever nature;
- (d) “*CJOC*” means the commander of the joint operational centre that is designated by the National Commissioner, a Divisional or Provincial Commissioner to take command of the JOC;
- (e) “*defensive measures*” refer to pro-active tactical measures such as static barriers which are used to protect and safeguard people or property, by cordoning off, blocking, isolating, patrolling, escorting and channelling people.
- (f) “*demonstration*” means any demonstration by one or more persons, but not more than 15 persons, for or against any person, cause, action or failure to take action;

National Municipal Policing Standard	Crowd management during gatherings and demonstrations
(g)	<p><i>“executive head”</i> means the executive head of a municipal police service (Chief of Municipal Police) appointed in terms of section 64C of the South African Police Service Act, 1995 (Act No. 68 of 1995) by the relevant municipal council;</p>
(h)	<p><i>“gathering”</i> means any assembly, concourse or procession of more than 15 persons in or on any “public road” as defined in the National Road Traffic Act, 1996 (Act No. 93 of 1996), or any other public place or premises wholly or partly in open air —</p> <p>(aa) at which the principles, policy, actions or failure to act of any government, political party or political organization, whether or not that party or organization is registered in terms of any applicable law, are discussed, attacked, criticized, promoted or propagated; or</p> <p>(bb) held to form pressure groups, to hand over petitions to any person, or to mobilize or demonstrate support for or opposition to the views, principles, policy, actions or omissions of any person or body of persons or institution, including any government, administration or governmental institution;</p>
(i)	<p><i>“information manager”</i> means the member designated to take responsibility for the collection and supply of all pro-active information of all crowd management events to the operational commander to ensure that all crowd management events are policed professionally. The information manager also liaises with all information based role-players and is never involved in covert or undercover information gathering;</p>
(j)	<p><i>“JOC”</i> means the joint operational centre that is activated at the scene of an incident or event;</p>
(k)	<p><i>“JOCCOM”</i> means the Joint Operational Coordinating Committee that is an integrated operational body involving the Service as well as external role-players such as the SANDF, Municipal Police Services, etc. The consultation process regarding the threat assessment is carried out by the JOCCOM, and involves all information role-players. The threat determination, mandate and tasking for the event will come from this meeting. The JOCCOM meets weekly and only deals with planned activities, such as an expected march. Furthermore the JOCCOM will activate the JOC, appoint the Operational Commander and identify all the required role-players involved.</p>
(l)	<p><i>“member”</i> means a member of a municipal police service;</p>
(m)	<p><i>“operational commander”</i> means an operational officer who is responsible for the operational coordination of an operation;</p>

- (n) *“Provincial Commissioner”* means the Provincial Commissioner of the Service or his or her delegate;
- (o) *“Public Order Policing Unit”* means a unit which has been established by the Provincial Commissioner to maintain public order which is the managing and policing of events and incidents of public collective action and behaviour. This includes managing pre-planned and spontaneous assemblies, gatherings and demonstrations whether of a peaceful or unrest nature.
- (p) *“responsible member”* means a person defined in Section 1 of the Act as a “responsible officer”, appointed by a local authority as a suitable person, including a deputy to such person, to perform the functions, exercise the powers and discharge the duties of a responsible officer in terms of *the Act*: Provided that, if a local authority has not made such an appointment, the Municipal Manager (City Manager) of the local authority or, in his or her absence, his or her immediate junior, is deemed to be the responsible member;
- (q) *“the Service”* means the South African Police Service;
- (r) *“the Act”* means the Regulation of Gatherings Act, 1993; and
- (s) *“VISPOL”* means Visible Policing: South African Police Service.

### **3. Pro-active conflict resolution**

- (1) If information concerning potential violent disorder is brought to the attention of the *Executive Head*, such information must be reported to the relevant *Public Order Policing Unit* and the *Provincial Commissioner* to initiate a facilitation process to peacefully resolve the factors that underlie the potential disorder.
- (2) *Executive Heads* must support the commitment to the partnership with the community by —
  - (a) building positive and constructive relationships with event organizers, community leaders and non-governmental organizations; and
  - (b) exploring the potential for establishing formal liaison panels, to prevent and defuse community disorder in conjunction with institutions such as local authorities, civic associations, community policing forums and non-governmental organizations.

### **4. Designation and responsibilities of responsible members**

- (1) The local authority may designate a *member* as the *responsible member* and submit, in writing, the name and contact details of the *responsible member* to the provincial commissioner as well as to all station

- commissioners within the area of jurisdiction of the municipal police service.
- (2) The responsible member must —
- (a) maintain a good relationship with the *authorised member of the Service*;
  - (b) receive written notice of an intended *gathering* in accordance with the provisions of *the Act*;
  - (c) receive and report information regarding an intended gathering to the *authorised member*;
  - (d) take such steps as he or she may deem necessary, including obtaining assistance from *the Service* to establish the identity of the *convener* of the intended *gathering*, and requesting the convener to comply with the provisions of *the Act*;
  - (e) consult with the *authorized member* regarding the necessity for negotiations on any aspect of the conduct of, or any condition with regard to, the *gathering*; and
  - (f) if, after the consultations referred to in subparagraph (e) above, he or she is of the opinion that negotiations are —
    - (i) not necessary and that the gathering may take place, notify the *convener* and the *authorized member* in writing accordingly; or
    - (ii) necessary —
      - (aa) set up a meeting between himself or herself, the *convener*, the *authorized member*, any other *responsible members* concerned, if any, and representatives of such other public bodies or other persons, as are, in the opinion of such *responsible member*, necessary to discuss the contents of the notice, amendments or additions thereto and the conditions, if any, to be imposed in respect of the holding of the gathering so as to meet the objects of *the Act*;
      - (bb) act as chairperson of the meeting and ensure that discussions take place in good faith;
      - (cc) impose conditions, if any, with regard to the holding of the gathering as envisaged in section 4(4)(b) of the Act and give written reasons therefor; and
      - (dd) ensure that written minutes are kept of the meeting and that the approval, conditions or refusal are communicated, in writing, to the applicant;
  - (g) ensure that a written copy of the notice, including any amendment thereof and any condition imposed and reasons therefor, is handed to the convener, the authorized member and every party who attended the meeting referred to in subparagraph (f) above;
  - (h) prohibit the intended gathering subject to the conditions referred to in section 5 of the Act and notify the convener, authorized

---

- member and every other person with whom he has met or consulted and provide reasons therefor; and
- (i) receive notification from the convener regarding any postponement, delay, cancellation or call-off of an intended gathering and notify the authorized member accordingly.

**5. Designation of authorized members**

- (1) Once the Provincial Commissioner has designated *authorized members*, the Provincial Commissioner will ensure that the particulars of the *authorized members* are submitted, in writing, to every municipality and executive head, if any, within the province.
- (2) An *executive head* must ensure that a notice containing the name and contact particulars of the designated *authorized member(s)* for his or her area of jurisdiction is displayed in all offices of the municipal police service to which members of the public have access.

**6. Duties and responsibilities of an authorized member**

The duties and responsibilities of an *authorized member* are to—

- (a) represent the Service and liaise with the *responsible member* and *conveners* concerning all negotiations and consultations as prescribed by *the Act*;
- (b) maintain a good relationship with the *responsible member* and *conveners*;
- (c) arrange and negotiate the extent of security forces to be deployed for an operation;
- (d) inform the *responsible member* of any unforeseen (spontaneous) *gathering*;
- (e) keep all records of operational plans and reports on the execution of operations and debriefing reports, for three years;
- (f) take part in the overall debriefing of events by attending the debriefing;
- (g) in writing, request the responsible member to impose conditions or prohibitions, if any; and
- (h) brief all members performing duties at a *gathering* or *demonstration* regarding the content of a notice, conditions and amendments thereto, issued in accordance with *the Act*.

**7. Receiving notice or information of a gathering**

- (1) When an *authorized member* receives a notice or information regarding a *gathering*, the following action must be taken:

National Municipal Policing Standard	Crowd management during gatherings and demonstrations
--------------------------------------	-------------------------------------------------------

If ...	then ...
the <i>authorized member</i> received a notice from a <i>convener</i> of a gathering,	he or she will inform the <i>convener</i> that such notice is to be handed to the <i>responsible member</i> and indicate how the <i>convener</i> is to contact the <i>responsible member</i> . The <i>authorized member</i> will consult with the <i>responsible member</i> and ensure that such notice has been received.
the <i>authorized member</i> received information from other internal police sources that a <i>gathering</i> is to take place,	he or she will consult with the <i>responsible member</i> and enquire whether notice has been given to him or her. If notice has not been given to the <i>responsible member</i> , the <i>authorized member</i> will contact the <i>convener</i> and inform him or her that notice is to be given and inform them of the provisions of <i>the Act</i> . The <i>authorized member</i> will consult with the <i>responsible member</i> in this regard.
the <i>authorized member</i> is contacted by the <i>responsible member</i> to inform him or her that a <i>gathering</i> is to take place,	the <i>authorized member</i> will make an attempt to gather further information pertaining to the intended <i>gathering</i> by using the relevant <i>Public Order Policing Unit</i> information network and requesting a meeting in terms of section 4 of <i>the Act</i> .

- (2) During consultations referred to in subparagraph (1) —
- (a) all the arrangements for the proposed event must be finalized; and
  - (b) the necessity for negotiations with the *convener* concerning any aspect of, or any condition about the intended *gathering*, must be decided.
- (3) The *authorized member* will inform the Provincial Commissioner of the arrangements made in accordance with subparagraph (2).

## 8. Threat assessment after information has been received

- (1) Immediately after notification or information has been received by the Provincial Commissioner or member designated by him or her of an intended gathering, he or she will, in consultation with the Provincial Head: Operational Response Services or relevant *Public Order Policing Unit* commander, determine at the *JOCCOM* the threat level involved, in order to identify the most suitable component to manage the proposed event.

National Municipal Policing Standard	Crowd management during gatherings and demonstrations
--------------------------------------	-------------------------------------------------------

- (2) The assessment of the threat level will be based on available tactical information in terms of level of risk, discussions and arrangements with the convenor, history of peaceful or violent protests by the parties involved, past experiences with the party, suitability of vicinity or venue in terms of alleviating or aggravating risk, etc.
- (3) The threat assessment must classify the threat posed by the *gathering* as being at one of the following levels:
- (a) **Level one:** a peaceful gathering or a less significant sport or entertainment event that can be policed by the municipal police service or *VISPOL* with the relevant *Public Order Policing Unit* on standby;
  - (b) **Level two:** unconfirmed information regarding a possibility of a threat against lives and property - *VISPOL* and the *municipal police service* are the primary role-players, with the relevant *Public Order Policing Unit* in reserve at the scene; and
  - (c) **Level three:** confirmed information regarding a likely threat against lives and property - the relevant *Public Order Policing Unit* takes operational command and *VISPOL* and the *municipal police service* assist in the policing of the event.

## 9. Appointment of the CJOC

- (1) The Divisional or Provincial Commissioner will ensure that the *CJOC* is designated, and that he or she is conversant with Standing Order (G) 262, this National Standard and relevant legislation and is well trained to take responsibility for the operation.
- (2) The *CJOC* is in overall command of the specific operation for which he or she is designated and is responsible for all actions taken.

## 10. Pre-planning of operations

- (1) The appointed *CJOC* is responsible for well-planned and co-ordinated actions for the duration of an operation.
- (2) For purposes of pre-planning, the *CJOC* must follow the following procedure:

Step	Action
------	--------

<b>National Municipal Policing Standard</b>	<b>Crowd management during gatherings and demonstrations</b>
---------------------------------------------	--------------------------------------------------------------

1	Develop a comprehensive written plan for the crowd management operation (see the guidelines contained in Module 2 of the Operational Commanders Training for SAPS Management).
2	Submit the written plan for approval to the Provincial Commissioner or, if applicable, to the <i>executive head</i> .
3	Submit the written plan to the relevant station commissioners and to the <i>executive head</i> for information purposes.
4	Activate a <i>JOC</i> and appoint an <i>operations officer</i> , taking into account the circumstances and the results of the threat assessment. In the event of a level 2 threat, a <i>CPU operational commander</i> must be appointed in consultation with the municipal police service. In the event of a level 3 threat, a relevant <i>Public Order Policing Unit operational commander</i> must be appointed in consultation with the relevant <i>Public Order Policing Unit</i> commander.
5	Implement an effective information <i>gathering</i> system for the operation to pro-actively gather up-to-the-minute, relevant and accurate information, enlisting the assistance of <i>VISPOL</i> members, having discussions with the public or the use of the information network of the relevant <i>Public Order Policing Unit</i> .
6	Collect the following information: (a) the actual route the participants plan to follow; (b) the likelihood of an outbreak of violence; (c) whether the participants are aggravated; (d) whether any firearms are or will be present; (e) the intention of the participants; (f) the actual number of participants that will take part; and (g) any other information which is of importance for the operation (see the Procedural Manual on <i>Crowd Management</i> for SAPS Management).
7	Use this information to apply the available resources or means effectively. In all instances where the relevant <i>Public Order Policing Unit</i> is actively involved in any operation (level 3) they must continually approach their information managers to gather information before and during an operation.

- (3) All information that is gathered prior and during an operation must continually be reported to the *CJOC* so that he or she is always aware of the actions of the participants. The *members* must report all information to their commanders who must then report it to the *CJOC*. This information must be reported either telephonically or by radio using the designated channel for upward reporting to the *CJOC*.

## National Municipal Policing Standard

## Crowd management during gatherings and demonstrations

**11. Briefing of members**

- (1) *Members* must be properly briefed before they are deployed to perform *crowd management* duties.
- (2) The *operational commander* must —
  - (a) personally brief all *members* in the command structure;
  - (b) ensure that all members in the command structure communicate the objectives of the operation clearly to all members deployed for the event; and
  - (c) instruct all commanders or section leaders to furnish detailed written plans on their specific tasks prior to the start of the operation.
- (3) During the briefing, the tasks of all role players involved in the operation must be defined in detail. The communication channel (chain of command) must also be thoroughly explained to all members prior to the operation.
- (4) A name list is to be compiled of all *members* present when a briefing is given. Commanders must be identified and briefed in accordance with the operational plan on what is to be done. *Members* must be questioned to ensure that they understand what is expected of them.

**12. Execution**

- (1) The use of force must be avoided as far as reasonably possible and *members* deployed for the operation must display the highest degree of tolerance. The use of force and dispersal of crowds must comply with the requirements of section 9(1) and (2) of *the Act* (section 9 is attached hereto as Annexure A). During any operation ongoing negotiations must take place between officers and *conveners* or other leadership elements.
- (2) If negotiations fail and life or property is in danger, the following procedure must be followed:

Step	Action
1	Put defensive measures in place as a priority.
2	Warn participants according to <i>the Act</i> , of the action that will be taken against them, should defensive measures fail.
3	Bring forward the reserve or reaction section or platoon, that will be responsible for offensive measures, as a deterrent to further violence, should the above-mentioned measures not achieve the desired result.

## National Municipal Policing Standard

## Crowd management during gatherings and demonstrations

4	Give a second warning before the commencement of the offensive measures, giving innocent bystanders the opportunity to leave the area.
5	Plan all offensive actions well and execute them under strict command after approval by the <i>CJOC</i> .

- (3) If the use of force is unavoidable, it must meet the following requirements:
- (a) the purpose of offensive actions are to de-escalate conflict with the minimum force to accomplish the goal and therefore the success of the actions will be measured by the results of the operation in terms of cost, damage to property, injury to people and loss of life;
  - (b) the degree of force must be proportional to the seriousness of the situation and the threat posed in terms of situational appropriateness;
  - (c) it must be reasonable in the circumstances;
  - (d) the minimum force must be used to accomplish the goal; and
  - (e) the use of force must be discontinued once the objective has been achieved.
- (4) The use of the following are prohibited during *crowd management* operations:
- (a) 37 mm stoppers;
  - (b) pepper spray, unless the relevant commander has issued a specific instruction to do so; and
  - (c) firearms and sharp ammunition, including birdshot and buckshot, unless the relevant commander has issued a specific instruction to do so.
- (5) Rubber bullets (shotgun rubber balls) may only be used as offensive measures to disperse a crowd in extreme circumstances, if less forceful methods have proved to be ineffective.
- (6) Force may only be used on the command or instruction of the *CJOC* or *operational commander* (if appointed). *Members* may never act individually without receiving a command from their commander.
- (7) All *members* involved in the operation must form part of a unified command structure, consisting of sections, platoons or companies. *Members* not working in sections may not be deployed. All visible policing members deployed for such purposes must be trained in the management of crowds.

- (8) Common law principles of self defence or private defence are not affected by this National Standard.

### 13. Reporting and record keeping

- (1) *Members* involved in an operation must keep the *JOC* up to date on actions and developments during the operation.
- (2) The *CJOC* must ensure that a detailed record is kept of all activities during the operation. All vehicles must have an operational diary which is completed by a member on that specific vehicle. The operational diary must contain all postings and instructions issued and all activities of participants during the event. An Occurrence Book entry must be made of the action taken and measures instituted by all functional role players involved in the operation.
- (3) Records of operational plans, all reports on the execution of operations, and debriefing reports must be filed together and kept according to the Record Classification System applicable to the said municipal police service. In the case of an operation dealt with as posing a Level 3 threat, the *CJOC* must ensure that copies of the operational diaries and the attendance list of all members who were deployed during such operations, are submitted to the *authorized member* and to the relevant *Public Order Policing Unit*.
- (4) The representatives of all main role-players must be present at the *JOC* for the duration of the event.

### 14. Debriefing

- (1) The *CJOC* must ensure that debriefing takes place after each event or *gathering* and that record is kept thereof.
- (2) Every level of command must debrief the levels below it individually, followed by an in-depth debriefing by the commanders of the operation. Afterwards a debriefing must be held with all role-players to determine whether the operation was effective and whether communication with the role-players was adequate.
- (3) A thorough evaluation must be conducted and, if possible, video coverage must be shown.
- (4) All good practices, as well as shortcomings, must be recorded as part of a learning process to enhance good practices and address or prevent recurrences of identified mistakes.
- (5) Trainers and instructors must attend the debriefings, to review actions taken by members, and to rectify improper conduct by means of in-service training in *crowd management* techniques.

**15. First member(s) at the scene of an unforeseen (spontaneous) gathering**

- (1) The first *member* who arrives at the scene or venue of an unforeseen (spontaneous) *gathering* must seek to preserve the peace and to protect and help the community.
- (2) The first *member* who arrives at the scene or venue must follow the following procedure:

Step	Action
1	Contact the operational centre of the municipal police service concerned and request back-up by personnel trained in <i>crowd management</i> .
2	Set up a mobile <i>JOC</i> and notify the relevant <i>Public Order Policing Unit</i> who may take operational command on arrival.
3	Attempt to create an atmosphere which is conducive to negotiations by refraining from the display of aggression, such as for instance, the brandishing of firearms and special equipment.
4	Identify the leadership element in order to establish communication and to start negotiations.
5	Set the highest standards of tolerance and, do not use any firearms against the demonstrators except in the case of private defence should lives be in serious danger.
6	Consult with the local authorities and <i>authorized member</i> concerning the <i>gathering</i> and the purpose of the <i>gathering</i> .
7	Bring the contents of section 9(1)(c) of <i>the Act</i> to the attention of the leadership element.
