FASSET

Fasset is a statutory body established through the Skills Development Act of 1998 to enable its stakeholders to advance the national and global position of the industry for Finance, Accounting, Management Consulting and other Financial Services.

The Fasset (Finance, Accounting, Management Consulting and Other Financial Services) Seta requires the services of a service provider to conduct a tracer study during the period 6 August 2012 to 28 February 2013.

1. BACKGROUND TO THE PROJECT:

- 1.1 The National Skills Development Strategy (NSDS) has been established, *inter alia*, to provide learners to the labour market with the skills necessary for their entry into the labour market and introduces a career for their life.
- 1.2 Specifically, the NSDS system aims at being demand-driven, beneficiary-financed, accessible and quality-assured. Much training has been funded under different project types and modes of delivery.
- 1.3 One of the main objectives to the NSDS is to:
 - (1) acquire a skill to enhance workplace functioning; or
 - (2) become employed as the result of acquiring education and skills.
- 1.4 In order to make the best funding decisions, with the limited available Seta funds, the Seta Board wishes to determine which interventions have yielded the best Return on Investment (ROI) for the Seta. To measure this, the Board has identified the need to conduct a tracer study of learners/individuals who have enjoyed Fasset funding on work readiness training programmes specifically.
- 1.5 The tracer study aims to determine the outcomes of specific Fasset-funded work readiness programmes since 2002, to a sample of 1500 recipients of Fasset funding in terms of employment rates, earnings, current sector in which employed, and retention rates after employment, regional distribution, and other relevant factors.

2. SCOPE:

- 2.1 The study aims to obtain insight into the trainees' employment situation after completion of the Fasset-funded work readiness training programme.
- 2.2 The general focus will be identification and interview of a sample of trainees funded by Fasset, interviews with the employers, data collection (qualitative and quantitative), and data analysis and reporting.

3. DURATION:

The estimated duration of this tracer study is 7 months.

Please quote **FAS/TL/PD/TRACER_STUDY/CON428** in all correspondence. Correspondence without a reference number will not be attended to.
